

FIGHTER

OUR OWN SWEDISHMADE WEED BRUSH.

You can also mount brush bundles or Saja cassettes and thereby be used as a third brush.

Simple mounting on tractors, wheel loaders and multi-purpose vehicles. BM, Trima or A-frame bracket included.

Powerful hydraulic motor drives the brush with the selected brush type, which can rotate both left and right. It can also be used as a front-mounted sweeper by replacing weed tufts to brushes

MADE IN
SWEDEN

FIGHTER
